

ENEMY REPULSED, RUSSIANS CLAIM

Czar's Forces in East Prussia Sustain Determined German Attacks.

SLAVS PUSH OFFENSIVE OVER VISTULA UNOPPOSED

Austrians Gain Successes, Says Vienna—General Movements of Armies Made Known.

LONDON, November 3.—In the east, a strong Russian right wing, which rests on the frontier of East Prussia, evidently has been sustaining determined attacks from the Germans. In the mean time the Austrians, hundreds of miles away, still threaten the Russian left wing. Reports of the fall of Przemyśl are declared by Petrograd to be premature and due to the capture of 4,000 men of the Przemyśl garrison, together with a large amount of arms and equipment, when a sortie was attempted.

Russian View of Fighting.

The following report from the general staff of the Russian commander-in-chief was made public in Petrograd: "On the front in East Prussia our troops have repulsed German attacks directed against Vlodzavoff, driven the enemy from the eastern edge of the Romint forest and advanced to the north of Lake Hagerod. "Beyond the Vistula our troops since the offensive without being opposed, only in the region of Opava, the Austrians attempted to resist us with considerable forces. They were repulsed. Beyond the Opava river the Austrians hold a fortified position. "In Galicia, on the San river, our troops entered the village of Nisko, where fierce fighting took place. The rest of the front the situation is virtually unchanged."

Austria Claims Captures.

An official statement issued in Vienna says: "The battles in Russian Poland continue. On the River San the Russians have suffered heavy losses, especially near Roslawitz. We captured 400 prisoners and three machine guns. "South of the Stry-Sambor line we also captured 200 prisoners. We have progressed here and northeast of Cracow. "The military correspondent of the Novoe Vremya, in Petrograd, explaining the changing dispositions of the enemy's forces, says: "The Austrians are moving south and south-east toward the Russian frontier and Cracow, while the German forces, following from Warsaw, are falling back toward the southwest toward the Silesian frontier."

Movements of Russians.

"As the Russian troops from Warsaw and Novoe Georgievsk follow the Germans, the Russian East Prussian Corps is moving in force on the region west of Warsaw covering Warsaw from the direction of Mlava and occupying both banks of the Vistula below Warsaw. "German officers captured near Warsaw state that the German extreme left is in actual contact with the center, but keeping in communication with it by flying cavalry divisions is moving west toward Kalisz. This wing constantly drawing reinforcements from Thorn and Mlava."

Przemyśl Not Taken.

The correspondent of the Morning Post in Petrograd sends the following: "Rumors persist that Przemyśl, in Galicia, has been taken, but these reports are untrue. What really happened is that the Russians captured 4,000 of the garrison, with a large amount of arms and equipment, when the garrison attempted a sortie. "Cholera and typhus are reported to be raging in Przemyśl."

Operations in Servia.

The following dispatch has been received from Berlin by the Marconi Wireless Telegraph Company: "It is officially reported from Vienna that our troops in Servia maintained their successes of previous days, when, to their advance upon Macva, they encountered strong positions protected by barbed wire entanglements, which they succeeded in breaking through."

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and find that the kidney region is generally means you have been eating too much meat, says a well known authority. Meat forms uric acid, which overworks the kidneys in their effort to filter it from the blood, and they become sort of paralyzed and lazy. When your kidneys get sluggish and clog you must relieve them like you relieve your bowels: removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, chancels often get sore, water scalds and you are obliged to seek relief by urinating three or four times during the night. "Further consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to cleanse and stimulate sluggish kidneys; also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness. "Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink."

DECLARES THE FRENCH ARE USING CATHEDRAL

Berlin Chancellor Files Protest With Vatican Over Action at Rheims.

BERLIN, November 3 (by wireless).—Information given out by the press today in official quarters includes the following: "Dr. von Bethmann-Holweg, the imperial chancellor, has called the attention of the Vatican to the fact that the French have placed a battery close to the Cathedral of Rheims, and that they are making use of an observation post in the tower of the cathedral. He protests against this use of a church, and says the French alone will be responsible for the consequences. "Berlin newspapers reproduced a dispatch received by the London Morning Post from Washington on the conflict of interest between Great Britain and the United States. They make very little comment on it. "Calls Turkish Course Justified. "Captured Russian sailors have declared the Russian fleet intended

to separate the Turkish fleet by laying mines at the entrance to the Bosphorus. Their purpose was then to destroy the Turkish navy. The Turkish action was therefore justified. "Reports received here from Rome set forth that the negotiations now pending between Roumania and Bulgaria as to a common course of action in the future are not directed against Austria-Hungary. Bulgaria has decided to call out the second line of her army. "The Petrograd newspaper Retch reports that Bedouins have occupied the British post of Berberik and made the local officials prisoners. The anti-British revolt is spreading. "The booty found in Antwerp, especially with regard to guns, ammunition, coffee, grain and wool, surpasses by far all the estimates of its quantity."
